

Seminar: RECON in context

Monday 22 October 2007

Holmenkollen Park Hotel Rica, Oslo

The background for this seminar is the challenges experienced by RECON project participants with using the project's theoretical models and adapting them to different research areas. The seminar will deal with how the work packages can link in and make use of the models, and how to operationalise these in different research fields.

Sunday 21 October

Arrival of participants

19:00 Dinner at *De Fem Stuer*, Holmenkollen Park Hotel Rica

Monday 22 October
